TOGETHER, BUILDING PEOPLE™

# Targeted Transfer Factor®

Receive the health support you need with Targeted Transfer Factor products from 4Life®

Targeted Transfer Factor products are part of a revolutionary system of health support, scientifically researched and developed by 4Life. These products are formulated to provide specific body system support and facilitate a healthy immune response.

As the category creators of Transferecultural® Science, 4Life recognizes that a strong, healthy immune system means a quick and effective response to any potential threat or stressor. The faster your body deals with nasty invaders, the more energy it can spend on your body's other needs. The impact of the immune system, whether healthy or weak, is felt throughout the entire body.

Robust support for the immune system is vital. Modern life does plenty to stress and weaken the body. Immune system function can be impaired by too little sleep, environmental hazards, poor diet, or a high-stress lifestyle. At 4Life, we've dedicated over a decade to researching and developing Transferecultural products, including our full line of Targeted Transfer Factor products.

## Targeted Transfer Factor® Products:

- Facilitate a healthy immune response
- Help you take a proactive role in your health and target your personal health needs
- Utilize cutting-edge health technology

# Transfer Factors

Immune knowledge for a healthy life

Transfer factors provide support that goes beyond any vitamin, mineral, or herb known today.

Simply stated, transfer factors are tiny molecules that transfer immunity information from one entity to another, such as between a breastfeeding mother and her infant. Scientifically studied for more than 50 years, transfer factors are an important element in supporting good health.

## Transfer factors:

- Help immune cells quickly recognize foreign invaders
- Promote the immune system's ability to remember invading organisms and more quickly respond to health threats
- Educate immune cells about potential dangers

Transfer factor molecules can be shared safely and effectively. Whether they are transferred from cow to human or from chicken to human, transfer factors are not species specific.

With transfer factors, you have the ability to borrow the immune memory from a source such as a cow or chicken. Your immune system will be primed to recognize, respond to, and remember potential threats.

# Targeted Transfer Factor® Product Experiences

*My favorite Targeted Transfer Factor® product is 4Life Transfer Factor® Cardio. It gives me peace of mind that I am doing something good for my heart, especially since heart conditions run in both sides of our family.*

Arlene Hubersberger, 4Life® distributor, New Mexico, USA

*All of the Targeted Transfer Factor products are wonderful and necessary for health and wellness, but I find 4Life Transfer Factor® ReCall® indispensable, as it includes critical components for brain health.*

Maria Rodriguez, 4Life distributor, Florida, USA

*I am 43 years old and about five years ago, I was searching for a way to support my balanced hormone levels. I took 4Life Transfer Factor® Belle Vie® for three months, and began noticing positive results for my hormone levels within a few weeks. Thanks, 4Life.*

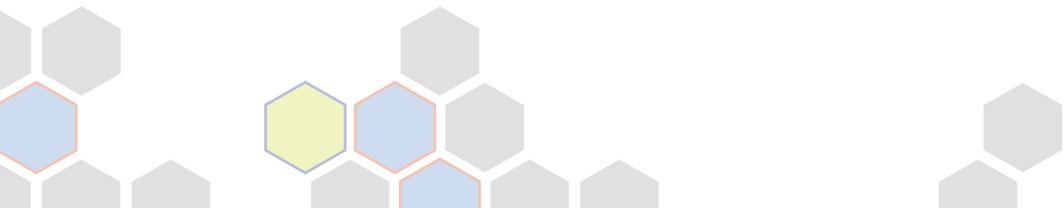

Evelyn Cabrera-Lopez, 4Life distributor, Utah, USA

*The combination of 4Life Transfer Factor and 4Life Transfer Factor ReCall really help support my brain function. Thank you, 4Life!*

Jane VanEerden, 4Life distributor, Ohio, USA

*I really like 4Life Transfer Factor® GluCoach®. I have been using it for three years and I appreciate the way it helps support my healthy glucose levels. There are no words to express my thanks to 4Life Founders David and Bianca Lisonbee for such a wonderful product.*

Maritza Guzman, 4Life distributor, Connecticut, USA

4LIFE TRANSFER FACTOR

# VISTA™

Promoting eye health

4Life Transfer Factor Vista provides targeted support to benefit visual performance and eye health. It features Targeted Transfer Factor®, specifically 4Life Transfer Factor® Tri-Factor® Formula, to support the immune system. 4Life Transfer Factor Vista contains the #1 doctor recommended lutein brand on the market\*, as well as ingredients that support healthy visual acuity and the health and function of the macula in the eye.

## 4LIFE TRANSFER FACTOR VISTA™:

- Supports visual acuity and sharpness
- Includes ingredients to help shield the macula of the eyes from excessive blue light and oxidative effects of the sun
- Promotes healthy eye function
- Supports the ability to adapt to varying light conditions

\*Based on the results of the National Disease and Therapeutic Index (NDTI) syndicated report among physicians who recommend a dietary supplement with lutein for eye health—August 2010–August 2011 (U.S. Data).

4LIFE TRANSFER FACTOR®

## BELLE VIE®

Promoting female system health

Vida Hermosa, bonita vida, belle vie—no matter what language you use, 4Life Transfer Factor® Belle Vie® is designed to support a long, healthy, and beautiful life for women around the world. Scientifically formulated to promote cellular health in women, Belle Vie offers targeted support that goes beyond the ordinary. It combines immune-enhancing Transfer Factor E-XF™ with a blend of herbal antioxidants, phytoestrogens, indoles, and calcium d-glucarate to support female breast and gynecologic health. Belle Vie provides a powerful natural approach that reinforces your proactive strategy for health and longevity.

### 4LIFE TRANSFER FACTOR® BELLE VIE®:

- Supports healthy cell growth and function
- Promotes healthy estrogen action
- Boosts immune system function with 4Life Transfer Factor®
- Supports the body's ability to eliminate toxins
- Provides protective antioxidant support

4LIFE TRANSFER FACTOR®

## CARDIO

Maintaining good heart health

4Life Transfer Factor Cardio targets the key elements important to maintaining a healthy cardiovascular system. The formulation begins with the strength of Targeted Transfer Factor® to support a healthy immune system.

In fact, 4Life Transfer Factor Cardio is the only product of its kind, supporting healthy cholesterol levels, normal blood pressure, and healthy homocysteine levels. Support ingredients include magnesium, coenzyme Q10, vitamins A, C, and E, a blend of B vitamins, ginkgo biloba, garlic, and red rice yeast extract to support good cardiovascular health.

#### 4LIFE TRANSFER FACTOR® CARDIO:

- Supports the efficiency of the heart as well as the integrity of vessels
- Supports your body's immune response and helps strengthen cardiovascular health
- Supports healthy circulation
- Promotes healthy blood pressure
- Supports healthy cholesterol and homocysteine levels
- Promotes healthy energy levels

#### 4LIFE TRANSFER FACTOR®

## RECALL®

Giving your brain the support it needs

4Life Transfer Factor® ReCall® is formulated to give your brain the support it needs. It includes patented Targeted Transfer Factor® for superior immune system support, plus other ingredients that support communication pathways associated with mental acuity and overall brain health. Finally, the combination of ingredients in this remarkable formula has been shown to support your brain's ability to deal with stress, so immune and oxygen components can work more effectively and thus help your brain conserve energy and function at a more optimal level.

#### 4LIFE TRANSFER FACTOR® RECALL®:

- Supports your body's immune response and helps strengthen brain health
- Provides advanced antioxidant support
- Supports circulation
- Contains ingredients that support and maintain healthy brain function

4LIFE TRANSFER FACTOR®

# GLUCOACH®

Promoting pancreatic health

Maintaining healthy glucose levels† is an important part of managing weight and an even more important aspect of good health for millions of people around the world. Metabolic and endocrine system health allows your body to properly use glucose from food and promote long-term health.

4Life Transfer Factor® GluCoach® is formulated to provide critical metabolic and endocrine support and promote healthy glucose levels. In addition to patented Targeted Transfer Factor® that supports immune system health, 4Life Transfer Factor GluCoach includes additional ingredients that have been shown to promote overall health.

†Refers to healthy levels for those individuals already in a normal range.

4LIFE TRANSFER FACTOR® GLUCOACH®:

- Supports healthy glucose levels
- Supports your body's ability to effectively metabolize sugar
- Supports your body's immune response and helps strengthen the health of your metabolic and endocrine systems
- Provides essential antioxidant support

4LIFE TRANSFER FACTOR®

# MALEPRO®

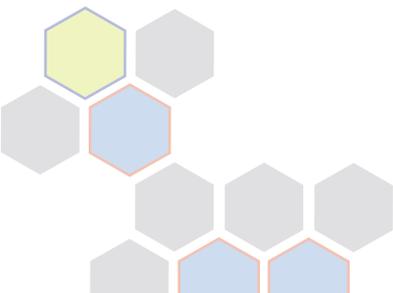

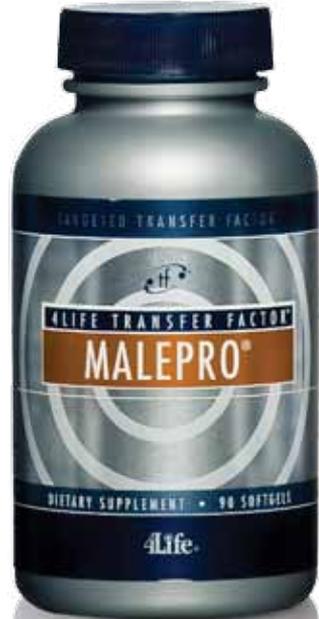

Supporting male prostate health

Clinical research strongly indicates that prostate health can be supported largely through a healthy diet, regular physical activity, stress management, and quality nutritional supplementation.

4Life Transfer Factor® MalePro® is an exclusive Targeted Transfer Factor® product, formulated to provide comprehensive dietary support for male glandular system health and healthy prostate function. It combines the immune-supporting benefits of Targeted Transfer Factor technology with saw palmetto, pygeum, nettle extract, lycopene, selenium, and other beneficial ingredients that support prostate health.

4LIFE TRANSFER FACTOR® MALEPRO®:

- Supports overall prostate health and function
- Provides essential antioxidants
- Supports your body's immune response and helps strengthen prostate health
- Utilizes standardized herb extracts to ensure product consistency, quality, and potency

4LIFE TRANSFER FACTOR®

# KBU®

## Strengthening urinary tract health

The organs in the urinary tract process elements critical to our overall health. Because bacteria can easily proliferate in these organs, a more vigilant immune system can help diminish these threats. 4Life Transfer Factor® KBU® is formulated to support the kidneys, bladder, urinary tract, and urinary pH, and is a great way to ensure the urinary tract is kept clean and healthy.

4Life Transfer Factor KBU offers the immune system support of 4Life Transfer Factor® Tri-Factor® Formula, along with natural ingredients such as cranberry, blueberry, and lingonberry that work to cleanse the bladder and urinary tract of unwanted bacteria. The formula also includes herbs with natural diuretic properties like juniper berry and dandelion leaf, along with varuna, IP-6, and chanca piedra to support kidney filtration and the tone and holding capacity of the bladder.

## 4LIFE TRANSFER FACTOR® KBU®:

- Supports healthy urinary and kidney function
- Supports your body's immune response and helps strengthen urinary tract health
- Maintains healthy bladder tone and flora
- Promotes healthy urine pH

4LIFE NANOFACTOR®

# GLUTAMINE PRIME®

Providing fuel for the immune system

We all experience times of stress, whether physical, mental, or emotional. During these times, our bodies activate immune cells to help deal with the stressor. 4Life NanoFactor® Glutamine Prime® supports the immune system by providing extra fuel to immune cells with an amino acid called glutamine. This helps power immune cell activity and provides the building blocks for the powerful and essential antioxidant glutathione.

NanoFactor extract provides enhanced communication between immune cells during these times of stress, leading to appropriate immune cell response and healthy immune system function.

4LIFE NANOFACTOR® GLUTAMINE PRIME®:

- Provides immune cells with the energy they need to deal with potential threats
- Enhances communication between immune cells
- Includes the building blocks of glutathione, a powerful antioxidant produced by the body
- Supports a healthy digestive tract
- Serves as a great companion product to 4Life Transfer Factor® Tri-Factor® Formula products

**Robert Robertson, Jr. MD / 4Life Health Sciences Advisory Board Member**  
 “4Life Transfer Factor® Cardio addresses the important issues of cardiac health unlike else available. Once again, 4Life is in the forefront of researching and making available life-enhancing products for the betterment of our health.”

**Richard Bennett, PhD / 4Life Health Sciences Advisory Board Member**  
 “4Life Transfer Factor® GluCoach®, with the immune system support of Targeted Transfer Factor®, provides unmatched support for both the metabolic and endocrine systems.”

**Calvin McCausland, PhD / 4Life Chief Scientific Officer**  
 “4Life Transfer Factor Vista™ is an outstanding product for targeted vision health. It contains lutein and zeaxanthin, plus Targeted Transfer Factor® to support the immune system needs of the eyes. It provides antioxidant support with vitamins E, C, and A. The Ocular Health Proprietary Blend rounds out the formula, with ingredients such as bilberry and black currant, nutrients that have long been used to support the eyes.”
